<i>Current Stocking:</i>	none
<i>Historic Stocking (last year stocked):</i>	brook trout (1967)
<i>Contaminants (species tested):</i>	no testing done
<i>Assessment:</i>	<i>Completed Projects:</i>
	1970 lake survey

Synopsis

Denis Lake is a small lake that was stocked with brook trout until 1967. In 1970, however, yellow perch were found in the lake at which point it was recommended that brook trout stocking be discontinued. It is unknown what the fish community consists of today as no research has been performed on the lake in over 40 years.
