<i>Historic Stocking (last year stocked):</i>	brook trout (1967)
<i>Contaminants (species tested):</i>	no testing done
<i>Assessment:</i>	<i>Completed Projects:</i>
	1971 lake survey

Synopsis

Lumber Lake is a small, very shallow lake located in McClintock Township. The lake was stocked with brook trout until 1967 when stocking was discontinued, likely due to the water level of the lake. Today, the lake is reported as having a maximum depth of 1.4 meters. The lake is currently managed as a source of baitfish with no game species present.
